GREEKS TRY IN VAIN TO PIERCE THE TURK FRONT

Fierce Fight Of Two Days Leaves Kemal On The Advantage

THREATEN FLANK

Communications Of The Hellenes Also Are Endangered

(Reuter's Service)

Constantinople, August 29.—The Kemalists claim to have gained a success in a fierce two days' battle, to the north-west of the Salt Desert. A Greek attempt to pierce the Kemalist front broke down.

The Kemalists then launched an offensive and captured Biledjik, and are continuing their advance.

If these reports are correct the Greeks' flank and communications are seriously threatened.

KEYNES' THEORY ON REPARATIONS ALARMS JOURNAL

(French Wireless through Reuter)

Paris, Aug. 29.—The Deutsche Allgemeine Zeitung continues the publication of a series of articles by the British economist, Mr. J. M. Keynes. In his latest article Mr. Keynes asserts that the Allies will not be able to impose on Germany for a long period of years what he calls "tribute."

The time may come, he thinks, when the victors will no longer be in a position to exercise sufficient pressure to secure the execution of the undertakings entered into in their favor, and he goes so far as to suggest the Allies should themselves institute the tax on their exports, the proceeds of which should go to swell the Reparations Fund.

Commenting on Mr. Keynes' article, the Journal des Debats expresses regret that under the guise of a scientific thesis the Germans should thus be encouraged to evade the fulfilment of their obligations.

"Certain economists," the Journal continues, "completely forget that the reparations problem is largely a moral question, and that a satisfactory solution depends largely on volition. These are they who during the military conflict, had they been listened to, would have caused the Allies to lose the War because the majority of them believed that victory was impossible.

"Moreover, it must not be forgotten that France is the country which suffered most in the War, and that if she pays less for German than for British coal, that is but a slender compensation for the destruction of her mines."

The Journal des Debats, however, approves Mr. Keynes' advocacy of a cancellation of National debts and his proposal that France should be granted priority in the payments to be obtained from Germany.

New Glass Passes Light But Stops Heat Vibrations

(Reuter's Service)

Montreal, August 29.—Sir William Pope, Professor of Chemistry at Cambridge University, today opened the Convention of the Society of Chemical Research, which is attended by noted chemists from Great Britain, Canada and the United States.

The scientific papers to be presented include one dealing with a new glass which the inventor claims will admit unlimited light while eliminating the heat rays.

ISHII SAYS REPORT IS ONLY TALE OF TROUBLE

Difficulties Faced By Supreme Council Are Its Contents

(French Wireless through Reuter)

Paris, August 29.—The Council of the League of Nations met at Geneva today to discuss the Upper Silesian question. Viscount Ishii, Acting Chairman, speaking to newspaper representatives, said that the reason why he had considered it his duty personally to assume the functions of Reporter in place of Senor Quinones de Leon was on account of the urgency of the matter. He added that the report which he had submitted to the Council of the League did not go beyond an exposition of the difficulties with which the Supreme Council had been faced.

The Geneva correspondent of the Agence Havas reports that this morning was devoted to preliminary private conversations between the various members of the Council of the League, and that the question of procedure will be taken up as soon as Viscount Ishii's report has been read.

Paris, August 29.—The despatch of reinforcements to Upper Silesia has been notified jointly by France, Great Britain and Italy to the German Government, which at once arranged for the transportation of the troops.

ISHII'S REPORT READ

Geneva, August 29.—The extraordinary session of the Council of the League of Nations today heard the report prepared by Viscount Ishii, Acting President of the Council, with regard to Upper Silesia, which it then discussed for an hour and a-half. The Council then adjourned till September 1 to enable the members to study the voluminous documents on the subject.

FATE OF 50 SOLDIERS IN MALAPURAM IS IN DOUBT

No Word Yet Of The Men Besieged In Heart Of Moplah Area

GHANDI AT FAULT

Carefully Planned Outbreak Due to Agitator Is British Belief

(Reuter's Service)

London, August 30.—There is not yet any news of the British garrison of 50 men who are besieged by the Moplahs at Malapuram.

It is increasingly evident that the revolt is a carefully planned attempt to paralyse the Government of Southern India. It is significant also that the Moplah country was the first to adopt Mr. Gandhi's non-co-operation program, and the rebels are at present convinced that a strong force from Afghanistan, commanded by Mr. Gandhi himself, is coming to their help.

The India Office has issued a statement that the revolt began by the Moplahs resisting a British search party sent to arrest certain Moplahs at Tirurangadi, who were carrying war knives, contrary to the law.

The following communique issued tonight fails to indicate whether the beleaguered garrison has been succored:

"A column, returning from Malapuram accomplished the relief of Pukkatur. Four hundred Moplahs were killed, while our casualties were two killed and six wounded."

TAKE TO HILLS

Calicut, August 29.—British troops, including cavalry, have arrived from Bangalore and proceeded to the disturbed area. Numerous refugees have arrived from the Ernad district. These relate pitiful tales of torture and looting. It appears that Tansa, Parappanangadi and other places have been practically deserted by rebels, who seem to have taken to the hills. The railway from Calicut to Shoranur has been repaired and the mail train is running daily.

CUDGELS! SAYS GOMPERS; ISSUES LABOR APPEAL

(Reuter's Service)

Atlantic City, August 29.—Mr. Samuel Gompers, President of the American Federation of Labor, has issued an appeal to Labor in those countries which will participate in the Disarmament Conference to endeavor to have Labor represented on their respective delegations. Mr. Gompers has also published certain correspondence with President Harding, in which he urged the President to appoint a Labor member to the American Commission, to which request Mr. Harding replied that he would consider this "very practical suggestion."

TIDE IS OUT ON GERMAN MORALS STATES REPORT

(Reuter's Service)

Berlin, August 29.—A Government proclamation strikingly portrays the internal situation. It declares that the Government is gravely concerned because of the disintegration of public morals, which, it asserts, threatens to undermine the foundations of the State, while the tone of a section of the press reveals a fixed plan by unscrupulous elements which aims at the overthrow of the Constitution. The Government, the proclamation concludes, will oppose these elements with an iron hand and unrelenting severity.

Pershing And Lodge Pay Tribute To War Dead

In the presence of 4,000 persons at Pier No. 2, Hoboken, N. J., General Pershing and Senator Lodge spoke at the memorial services over the bodies of 7,264 Americans who died in the World War. Many gold-star mothers were in tears. When General Pershing ceased speaking he placed a wreath on the coffins containing the bodies of the first three killed in the war—Corporal Gresham and Privates Enright and Hays. Taps were blown by a coast artillery soldier. The photo shows General Pershing addressing the assemblage. Many of America's dead will remain in France.

Fenghsien, Shensi, August 29.—[illegible] death of the new Tuchun Yen Hsian-wen showed that he took an overdose of opium. He left a note stating that he ended his life on account of the chaotic state the province was in and his inability to control the men under him.

General Feng Yu-hsiang has been appointed his successor. It is expected that some posthumous honors will be conferred on Yen by the Peking Government.

FRANCE TEACHES PEASANTS HOW TO USE POTASH

(French Wireless through Reuter)

Paris, Aug. 29.—The question of the sale and export of potash from the mines of Alsace was promptly taken up after the signature of the Armistice in November, 1918. In December of that year a Provisional Bureau for the sale of Alsace potash was established at Mulhouse with the double object of organising the production and sale of the article, and creating an intensive propaganda for the education of French agriculturists in the use of mineral manures, (a subject in which France was considerably behind Germany, which consumed 536,000 tons of pure potash in 1913 against 33,000 tons consumed by France).

This publicity campaign scheme met with unqualified success. Despite railway and other strikes which dislocated the industry of the country, 62,500 tons of pure potash were exported from Alsace in 1919. In January, 1920, the Provisional Bureau of Sales was transformed into a Potash Trading Society equipped with large experimental laboratories and a

Oh! For A Nice Quiet Couch In Boiler Shop

By Elsie McCormic

We read an article somewhere about "How to Sleep Eight Hours in Four." Someday when we learn how to do it, we are going to write a sequel on "How to Sleep Two Hours in Shanghai." To be able to sleep soundly in this port of the Pacific implies either a clearer conscience than is usual here, total deafness, or a bottle of soothing syrup.

As a rule, nobody tries it. There used to be an old Chinese punishment which deprived the victim of sleep for a certain period; and according to yamen reports, he usually died at the end of a week. The same system is still in vogue in Shanghai, only it is inflicted not by the law, but by jazz orchestras; and at the end of a week the victims are not dead, but dying—that is, dying to go off on another party.

The average time for sleeping in Shanghai is about the same as the receiving hours at a tea on the reverse side of the day from about four to seven. We don't know why the housing problem should be deemed so serious here, for anybody could arrange with the coolie to keep his trunk at the office and then use a little ingenuity in finding a way to kill off those three hours. He might go down to a bench in the Public Gardens and take his knitting, or else divert himself by arranging a few wheel-barrow races among the early blossoming coolies. Or maybe he could make a collection of fare receipts and paste them in an album. By taking a little thought and consulting the essays of Dr. Frank Crane, he might find a way of utilising the time that would be both pleasant and profitable.

AWAITS DAWN TO WAKE

Occasionally, however, the Shanghai inhabitant fails to get an invitation for the evening, and having, through lack of practice, forgotten what to do with himself in his own house after nightfall, he decides to court a little sleep. Climbing in under the mosquito net gives him a delightful sense of privacy—a sense of being shut away from all the harassing features of daily existence. It seems to the newcomer as if he were buried in a nice clean vault, with resurrection privileges whenever desired.

After the night has worn on a little and he has tried sleeping in every position except on his hands and knees, the person concerned realises that this sense of privacy is false. He has company of coloratura soprano tendencies, varied occasionally by contralto. The volume soon swells to the Pilgrim's Chorus from Tannhauser, only it seems to the audience that the orchestra leader is careless in the way he handles his baton. [illegible] call attention to [illegible] by jabbing an innocent bystander, especially one who isn't very critical about music, anyway.

By the time his face has come to resemble a relief map of the Himalayas, the near-sleeper reaches out wearily for the light and looks around for the hole in the netting. There is not a tear in sight. He sees nothing but an intact and primly tucked-in net, with the erstwhile orchestra resting on their instruments in the extreme northwest corner. He slaps at them ineffectively with his hand, longing meanwhile for one of those little fly-swatters that the traffic policemen carry in the French Concession. After wrapping the draperies of his couch around him, he lies down, not to pleasant dreams, but to wondering about the stage entrance of his nocturnal orchestra. Personally, it is our theory that they enter upon their concert careers very young in life and then grow up inside the net.

NO SOUND BUT—!

Finally, however, the overfed orchestra completes its repertoire and then nothing is heard in the room but the ticking of the clock, the perpetration of Chinese jazz in a tea-house around the corner, the continuous honk of joy-riding automobiles, the cooing tones of Chinese venders, and the outward, audible sign of inward, troubling colic on the part of the baby next door. There is also usually a chow dog, which the auditor hopes will be converted into chow at the earliest opportunity. Sometimes he tries to assist the process by throwing out a shoe, but it merely wakes up a cat and is carried off by a coolie.

When the last joyriding automobile has honked off into darkness and the mother next door has found the paregoric bottle, the near-sleeper turns over with a grateful sigh, only to find out that the wheel-barrow procession has begun. No wheel-barrow coolie is ever guilty of oiling his equipage, for the creak is Caruso to him and he loves it as an Italian cobbler does his only record of Il Pagliacci. If the Mixed Court ever desires to punish a wheel-barrow coolie effectually, it should put him under bond not to allow his vehicle to creak for thirty days. Such a method would mean the rapid extermination of crime in this pushing and progressive profession.

The wheel-barrow cavalcade thins out at last, after which hot baths begin to arrive for the family next door. Accompanied as it always is by a burst of song on the part of the coolies from

WILL HOLD MEETING IN KULING TO BRING PEACE OUT OF CHAOS

Chao Hen-Ti, Head Of Insurgents, Ready To Assist And Abandons His Cantonese Allies, To Come Into The Fold---Long Considered Plan Now Near Fruition

(Staff Wire To The China Press)

Hankow, August 29.—Wu Pei-fu is keeping his word. With the Hupeh-Hunan situation well in hand, and holding more clearly than ever the balance of power in China, he has reiterated his intention of calling together a national convention for the purpose of drawing the whole country together. Plans are now being formulated for holding such a conference, probably at Kuling, in the near future. Thus one of the Northern chieftain's most cherished plans nears fruition.

Although General Wu is himself in Yochow, which he has just captured from the Hunanese insurgents, his secretaries are busily engaged in the preparation of invitations to the different provinces to send delegates to the proposed conference. The invitations, it is learned, will be accompanied by a lengthy declaration by General Wu.

BRINGS BIG CHANCE

Supporters of the Chihli leader say that his action had been planned for some time ago and that the fall of Yochow has brought the golden opportunity for carrying it out.

It will be remembered that over a year ago, after the downfall of the Anfu clique, the super-tuchun, then but a division commander, advocated a National Citizens' Convention for the settlement of the country's internal difficulties. But he was then laughed at by his present colleagues, Chang Tso-lin and Tsao Kun, who considered him too unimportant to discuss matters concerning the entire nation.

WU MAKES WRY FACE

Wu had to swallow the pill, having only the civilian supporters and one crack division to convince his military superiors that he was right. Public opinion gradually crystalised into a stronger force behind him. He was from time to time asked to be Tuchun of Chekiang, Kiangsu, Shensi, Honan and lastly Hupeh. The Central Government was forced to take

Auto Show Buildings To Cover Nearly Four Acres

Big Dancing Floor And Chinese Tea Gardens To Be Included; Germans Will Be Among The Exhibitors

The Shanghai automobile men who are sponsoring the exhibition to be held in Verdun Gardens in the late autumn had their first look at an architect's drawing of the grounds and buildings at their meeting at the Palace hotel last evening, and to those who had not personally inspected the location previously the blue prints proved a revelation.

From the drawings, which were brought to the meeting by Mr. White, chairman of the building committee, the motor car men gained an altogether new impression as to the magnitude of the forthcoming show. They learned, for the first time, that the exhibition is to embrace not only motor cars and their accessories but that, in addition, it is to be the scene of what in all probability will be the largest dancing floor ever constructed in the Far East, and that Chinese gardens rivaling those in the old royal palaces are to be constructed as part of the plan for entertaining the thousands of visitors who are sure to attend the show.

When Mr. White unfolded his blue prints the members of the Executive Committee were amazed at the possibilities he had worked out, and when the drawings were explained every man present was more than ever convinced that the forthcoming show will be an event that long will be remembered.

BIG MAIN BUILDING

The main building for the show is to cover 65,000 square feet, an area much larger than the floor space taken up by "home side" shows. For displaying the various cars and accessories there will be booths with an aisle frontage of 25 feet, and a depth of 20 feet. The aisles are to be 25 feet wide—wider than some of the main streets in Shanghai—and are to be so arranged that every display will have an advantageous position. The building will be 15 feet high at the eaves and 27 feet high in the center, which will give ample room for a brilliant decorative scheme, which probably will have Chinese lanterns as its foundation. Underfoot there is to be a vast board floor, covering the entire area.

With the show organisation work well under way, the committee is being deluged with requests for space, exhibitors from foreign countries, notably Japan and Germany, having cabled and written for particulars. At last night's meeting the committee took up the question of alloting space to Germans, with the result that a resolution was adopted to the effect that the Chairman (Mr. Dodge) be authorised to notify would-be exhibitors of any nationality that they will be allowed to take part in the exhibition, contingent upon space being available, of which they will be notified in due season.

GERMANS TO HAVE CHANCE

Preceding the adoption of this resolution there was a general discussion over the question of admitting German exhibitors, and it was the unanimous feeling of the committeemen that they should be welcomed, and while there was a "contingency" attached to the resolution, it is not regarded as likely that there will be any trouble in providing space for them. Mr. White, in drawing up plans for the building, asked the architects for a flexible building scheme, and if necessary he can enlarge or extend the main building, he informed the committee.

The committee also wants it made known that every effort will be made to find all the room necessary for makers of products closely allied to the automobile industry, and the only hesitancy in promising unlimited space to this class of exhibitors is the fact that it is not known, definitely as yet, just how much space the local automobile and accessory firms will require. Requests for estimates for space have been sent to these firms and it is expected that the replies will be in hand when the committee meets again next Tuesday.

It is now known that every one of the leading automobile firms in Shanghai will have exhibits at the show, and that all but one or two of the smaller concerns will be represented. For these firms seventy four spaces, each containing 500 square feet, are available.

Those present at last night's meeting were Chairman Dodge (Dodge and Seymour, China, Ltd.); Ph. Osterberger (Grand Garage Francais); White (Central Garage); Giovininni (H. S. Honigsberg and Co. Inc.); Leonard (U. S. Rubber Export Co., Ltd.); Friedman (China Motors, Ltd.); Lee (Lee and Lee Garage, Ltd.); Schlobohm (Shanghai Service Co.); Buck (China Mutual Trading Co., Ltd.); and Arthur West, manager of the show.

China Must Unify Is Wu Pei-fu's Last Word

(Continued from Page 1)

cognisance of the popularity of the man. His forces were increased. He was made Deputy-Inspector-General of Chihli, Shantung and Honan and when Hupeh broke into uproar in the move to oust its Tuchun, Wang Chuan-yuan, General Wu was assigned the duty of quelling the disturbance.

From the very beginning it was evident that Wu could clear Hupeh of insurgents single-handed. But he was too clever to tire out his own divisions. Shantung, Honan and even Hupeh troops were utilised. The navy was put to service, while he himself today not only controls the entire province of Hupeh, where all lost territory has been recovered, but also the section of the railway between Chengchow, Honan and Hankow. He has both money and forces.

With his own position strongly established in Honan and Hupeh and part of Chihli, it is believed that Wu can now dictate to the militarists exactly what he wants—namely, a national convention to settle all internal disputes and to assure a united front at the coming Pacific Conference table.

It is reported that the convention will involve two conferences, one of civilians and the other of the military, the delegates to be elected from the different provinces in limited number.

The report that General Wu Pei-fu had gone to Paotingfu has been denied. He is now arranging matters in Yochow. A compromise with the Hunanese insurgents is again reported.

CHAO FORSAKES CANTON

(*Staff Wire To The China Press*)

Hankow, August 30 (4 p.m.).—It is definitely learned that Chao Heng-ti, the Hunan leader, has joined hands with General Wu Pei-fu and that the defeat of the insurgents in Yochow was caused by the pro-Wu attitude of the Hunan commander.

Disturbance in Changsha was reported last night. Chao issued a proclamation ordering the complete evacuation of insurgents from the two Hu provinces, including the Kuomingtang leaders who have been actively engaged in the campaign against Hupeh with headquarters in Changsha.

The land forces of the insurgents in the central column are losing, endangering Changsha, which may surrender.

General Chiang Tso-ping, formerly Deputy Chief of the General Staff of Peking and General Kung Keng, the Hunan commander, are now refugees on the Japanese gunboat, Chiyo, near Yochow.

General Wu Pei-fu is expected to exonerate Chao Heng-ti of all blame in the recent clash and enable him to retain his post in Hunan.

Mr. Chang Yi-ling, formerly Minister of Education at Peking and a trusted friend of Wu Pei-fu has left Hankow for Yochow in company with the representative of General Li Yuan-hung to consult with Wu on the question of self-government in Hupeh.

The civilians in Hankow, out of sympathy for the ideals of General Chiang Tso-ping and Kung Keng, have appealed to Wu to save the lives of both insurgent leaders.

CHAO IS SCAPEGOAT

(*Staff Wire To The China Press*)

Hankow, August 29.—The Hunanese have been overwhelmingly defeated. Their retreat began on Saturday. Chinglingchi and Yochow were evacuated because the Hunan troops had exhausted their ammunitions.

It is also reported that general evacuation was occasioned by the British gunboats escorting the Changwo from Changsha which returned fire when the Changwo was fired upon by Hunan forces from the shore at upper Chinglingchi.

The naval landing parties of General Wu Pei-fu took advantage of the firing by the British and succeeded in occupying Chinglingchi. Fighting round Yochow began yesterday morning when the Hunan insurgents hurriedly withdrew from Yochow and the vanguards of General Wu occupied the city at 3 o'clock yesterday afternoon.

Hunan forces are reported to have been completely withdrawn from Hupeh. The railway line between Yochow and Wuchang has been repaired.

General Wu Pei-fu has gone to Paotingfu. General Chao Heng-ti, the Hunan Commander-in-chief, has appealed to Wu Pei-fu for an armistice. The insurgents in Changsha have met with a total collapse, while Chao is made the scapegoat and may lose his post.

TSAO RETURNS MILLION!

(*Reuter's Pacific Service*)

Peking, August 24.—General Tsao Kun has returned Treasury bonds to the value of $1,000,000 to the Ministry of Finance and has applied for cash in their stead in order that he may supply General Wu Pei-fu and General Hsiao Yao-nan with some portion of the funds that are necessary for the conduct of the campaign against Hunan. The Ministry now has the matter in hand.

YOCHOW EASILY TAKEN

Hankow, August 29.—General Wu Pei-fu took Yochow yesterday without fighting. A Chinese warship twice fired blank charges, after which the troops entered without opposition.

Generals Kung Keng and Chiang Tso-pin fled at the earliest opportunity and are reported to have made for Hankow en route for Shanghai.

General Wu Pei-fu had a conference with a delegate of General Chao Heng-ti at Yochow this morning. It was decided that an armistice should be observed for three days, and that Yochow should be a neutral city in future. There are indications that fighting in that district is at an end, at least for the time being.

the hot water shop, a bath in Shanghai is more or less of a public function. As soon as the last gurgle has died away, the alleged sleeper's alarm clock sings. Pulling the net over his head like a bridal veil, he yawns wearily and wishes for a nice quiet boilershop where he could get a decent rest.

Some doctor once said that everybody should have eight hours' sleep, but didn't specify how often. In Shanghai it is assumed to mean eight hours a week.

Foreign Woman In Assault Charge Against Dairyman

Mrs. A. E. Swenson, 20 Thorburn Road, appeared before Assessor Jacobs and Magistrate Li in the Mixed Court yesterday to press a charge of assault against a dairyman from whom she had purchased a cow.

Mr. P. M. Linebarger, appearing for the complainant, asked that the case be remanded for the Swedish Assessor and that bail be not granted. In order to determine the latter point the court called for the complaint to be outlined.

Mrs. Swenson said that two months ago she bought a cow from the accused. The animal was valued at $220 and she gave in part exchange one valued at $80. She then purchased another cow and paid over $400 on the guarantee that the cow would give 20 bottles of milk a day. When she complained that there was not this much milk forthcoming the defendant said it was the fault of the boy who did the milking. She arranged for the defendant to make a test himself and he only got half as much milk from the animal as her own employe. Her employes then assaulted and beat the defendant, who was rescued by a foreigner at her direction. Later the defendant came several times and demanded that she settle or return the cow and on Sunday he had come with a number of other men and struck her in the face.

The court remanded accused in custody for one week pending the receipt of an application for the case to be heard by the Swedish assessor.

Farmers Attack Police Station After Accidental Shooting

The accidental shooting by a military policeman of a Chinese in Nanhwei, Pootung, raised a storm of indignation in the district which has resulted in the rushing of the police station and the demand of action in the district court, according to the Chinese press.

Last Sunday, the report states, a sergeant and a squad of men were sent from the police sub-station at Cha Kong Kew to raid gambling and opium dens in the Doo Ka Hong village. In the upper room of a house they found a number of persons smoking opium and to prevent their escape surrounded them with levelled rifles.

The safety catch of one of the weapons happened not to be set and the rifle was discharged, the bullet killing a man named Woo. After the accident the police returned to the station while several hundred farmers in the neighborhood of the village gathered and stormed the place. The police fled.

A meeting of the gentry was called later and demands were formulated for the punishment of the constable who did the shooting, the Nanhwei city magistrate being requested to conduct an investigation.

Death Of Seaman Being Investigated

An inquest in connection with the death of James Reilly, an American, who was arrested in a semi-conscious condition in the Public Gardens Monday and died in the evening at the Shanghai General Hospital, is to be resumed this afternoon before U. S. Commissioner Schuhl.

At a hearing held yesterday before the Commissioner testimony was given that Reilly was found in the Public Gardens about noon on Monday apparently drunk and was taken to the Central Police Station. He asked to be permitted to sleep through the afternoon. In the evening he gave indication of being seriously ill and on orders of Chief Inspector Vaughan he was removed to the Shanghai General Hospital where he died. Reilly arrived here several months ago as a seaman and after a brief period of employment has been living in a Chinese lodging house.

(*Reuter's Service*)

Paris, August 29.—The Wiesbaden agreement between M. Loucheur, French Minister for Liberated Regions, and Dr. Walter Rathenau, German Minister of Reconstruction, regarding Franco-German reparations, is greeted in Paris with much satisfaction, as heralding a probable substantial improvement in the economic situation in the very near future, through the rehabilitation of industries in the devastated provinces more promptly than had been anticipated.

By this agreement Germany is bound to deliver within five years raw material and machinery to be used solely in the devastated provinces, thus leaving French industry full scope in other provinces as well as in outside markets.

UNIFICATION AND ARMISTICE ASKED BY PACIFIC UNION

New Body On Pacific Affairs Demands United Front At Conference

The unification of China before she goes to the Pacific Conference and immediate armistice at the Hupeh front were asked in two circular telegrams sent yesterday by the newly inaugurated Pacific Conference Union, consisting of nine leading Chinese organisations in Shanghai.

The messages were addressed to the Northern and Southern Governments, Generals Wu Pei-fu and Chao Heng-ti, all administrative officers, military leaders and local organisations.

The telegram pleading for a united front at the coming conference table in Washington nominated seven diplomats who are acceptable to the union as delegates to the Washington Conference. The nominees are Dr. W. W. Yen, Dr. Wu Ting-fang, Mr. Tang Shao-yi, Dr. V. K. Wellington Koo, Dr. C. T. Wang, Mr. Alfred Sze and Dr. Wang Chung-hui.

C.P.O.S. s.s. Empress of Japan from Vancouver, bearing a large consignment of American mail, is due off Woosung at 8 a.m. tomorrow. The tender Alexandra, with passengers and mail, is expected to arrive at the Customs jetty about 11 a.m.

The Empress of Japan will be dispatched for Hongkong tomorrow afternoon. The Alexandra will leave the Customs jetty for Woosung at 3:30 p.m. with outbound passengers. All baggage will be received on the tender, and must be aboard for examination at 3:15 p.m. Outbound mails close at the American postoffice at 12:30 p.m. tomorrow for registered, and at 1:30 for ordinary and seaplane. British mails for the Empress close at 2:30 p.m., and at the Chinese postoffice at 2.

The C.P.O.S. s.s. Empress of Asia is due off Woosung from Vancouver and Japan ports at 2 p.m. Friday and sails for Manila and Hongkong at 9 a.m. Saturday. The incoming passenger tender is expected to reach the Customs jetty about 4:30 o'clock Friday afternoon and the outbound tender with Manila and Hongkong passengers will leave the Customs jetty at 7 o'clock Saturday morning.

Yunnan Drafting New Constitution

(*Reuter's Pacific Service*)

Peking, August 23.—A message from Yunnan received in official quarters in Peking states that General Koo Bin-chen, the Commander-in-Chief in that province, has organised a committee to draft a Provincial Constitution. At the head of the Committee is Mr. Chow Fang, who was Provincial Treasurer at Yunnanfu during the Manchu regime.

STOP POPPY OR LOSE PRESTIGE, WOO'S WARNING

(*Reuter's Pacific Service*)

Peking, August 23.—Dr. Wellington Koo has telegraphed to the Government at Peking, emphasising the necessity for more effective anti-opium measures on the part of the Chinese Government. Dr. Koo points out that the prestige of the Chinese nation abroad is intimately concerned in the suppression of the opium traffic, and that the responsibility for its suppression therefore should not be relegated entirely to provincial authorities.

He suggests that the Commissioners for Foreign Affairs in the various provinces should be given special powers to supervise anti-opium work and to ensure the efficient execution of the prohibition measures.

Peking, August 24.—Mr. Wu Chang-chih, the Special Commissioner to investigate poppy cultivation in Suaiyuan, has arrived at Kalgan and will leave shortly for Suaiyuan, where he will have an interview with General Ma Fu-hsiang. His task will not be an easy one as, it is stated, the Chinese officials in that district are still deriving considerable revenue from opium taxes.

BURN 4 TONS OF IT

Hongkong, August 29.—August 27 was celebrated as "victory day" in Canton. The most important events were a public burning of fours tons of opium valued at $400,000, and a parade in which thousands took part, including military, and representatives of labor unions, public organisations and students.

ASIA LIFE CO. BEGINS BUSINESS ON SEPTEMBER 1

New Insurance Enterprise Is Headed By Mr. F J. Raven As President

The newly organised Asia Life Insurance Company has announced that it will begin the issuance of Life Insurance policies in China on September 1. Incorporated in America, the company is financed locally and the directorate consists of Mr. F. J. Raven, President of the American-Oriental Banking Corporation, Mr. C. L. Seitz, General Manager of the China Pacific Company, Mr. B. C. Sienkevitch, Far Eastern Manager of the Rossia Insurance Company, Mr. W. R. Rice, Vice President and General Manager of the Asia Life Insurance Company, and Mr. C. V. Starr, General Manager of the American-Asiatic Underwriters.

The company is capitalised at G.$500,000, with G.$150,000 of capital and surplus paid in.

The management of the company is in the hands of Mr. W. R. Rice, formerly of the Prudential Life Insurance Company of America.

The company expects to issue all forms of life insurance with the standard features to be found in American policies. The development of the company will parallel as closely as possible the development of the American-Asiatic Underwriters and the American-Oriental Banking Corporation, working in close co-operation with the organisation of the underwriters through their branches in Hankow, Tientsin and Harbin and with the American-Oriental Banking Corporation through its new branches in Foochow and Chungking.

The Superintendent of Chinese agencies is Mr. S. T. Richards, for many years prominent among local life insurance men. Mr. H. A. Pan, Assistant Secretary of the Company is a graduate of the University of Pennsylvania where he specialised on the theory and practice of insurance and its economics. Since returning to China he served for a period as instructor in Economics at the Nanking Teachers' College and has since been with the American-Asiatic Underwriters.

The Chinese Advisory Council of the Company composed of prominent Chinese includes Admiral K. N. Lew of Shanghai, Mr. Liu Tse-tsin of Hankow, and Mr. King Kung-pah of Peking.

HUNGARY'S AREA NEXT PROBLEM OF THE LEAGUE

(Reuter's Service)

London, August 29.—While the League of Nations is about to try and settle the Upper Silesian question, the Entente is faced with another Central European dispute, namely, that between Hungary and Austria for the possession of the West Hungarian district of Burgenland, which was to have been handed over to Austria under the Peace Treaty.

Austrian gendarmerie who entered West Hungary, apparently with the object of taking over control of the district, were opposed by Hungarian soldiers, and, in accordance with instructions from Entente officers, have returned across the frontier.

Now Reuter's Vienna correspondent reports that Hungarian armed bands, commanded by uniformed Hungarian officers and led by Colonel Hejjas, leader of the "Awake Hungary" party, have occupied the railway-station of Oedenburg, the principal town in Burgenland.

Pending negotiations for the settlement of this question, it is reported that the Entente is sending troops from Silesia to occupy Burgenland.

Big Tonnage Is Built By Germans

Jobless May See Hope's Ray Here

(Reuter's Service)

Washington, August 29.—President Harding intends to convene in September a conference, representing the whole country, to inquire into the question of unemployment, particularly with regard to measures of economy necessary to restore business to normal.

Surprises Come Fast In Canton's Modern Baliwick

Canton, Aug. 22.—Something new is always starting nowadays in Canton. There are two important strikes for higher wages and better conditions still unsettled, the tea-house workers and the carpenters and masons under the general term of building workmen. The tea-houses involve the waiters who serve at the table and the bakers and cooks who prepare the refreshments. The bakers, however, not only serve the tea drinkers but also the community which requires their products in every form and for many occasions, the most important of which is the coming mid-autumn or full moon festival, September 16 next, when exchange of gifts in moon cakes so-called is the custom.

An absence of this necessary gift will be most interesting, as it will inform every woman and child some significance of a modern strike and power of organised labor and its effect in local life and customs. The building business in Canton is at a standstill just now. More than two thousand laborers surrounded the police headquarters for more than two days to demand the release of eight workmen who were arrested August 19 for lawlessness when negotiating with their employers.

The police finally surrendered the eight accused to the labor officers who welcomed their comrades home in an automobile followed by a parade of more than a thousand strong shouting over their victory over the police.

ATTACK STOCK MARKET

The Canton press, with but a few exceptions, is making an attack on the newly organised Canton Stock Exchange, the ground of opposition being that it admits Japanese capital. According to officers of the Exchange, only Chinese members have been admitted so far. The chief promoter of the Exchange is Mr. Chan Lim-pak, president of the General Chamber of Commerce of Canton.

Aside from sanitary measures now being taken by the City Board of Health to prevent further spread of the cholera now prevailing in Canton, lectures are given nightly in the leading churches and public places here to educate the citizens in public health and preventive medicine. To supplement these street and church lectures on civic matters, the City Board of Education is now holding a "People's University," through which a series of lectures and demonstrations on popular science and knowledge, especially civic information helping to form a more intelligent citizenship, for the benefit of a group of nearly eight hundred young men and women.

LECTURES IN UNIVERSITY

The "University" will be in session for three months, and among the lecturers are some of the best known leaders now in Canton. Including Dr. Wu Ting-fang, the Foreign Minister of the Canton Government, Mr. Hu Han-min, former Governor-General of Kwangtung, and others.

The newly elected magistrates in the different districts of Kwangtung will be confirmed by the Civil Governor of the province within the next two weeks, after which the many new district councils or assemblies chosen by the people will begin to meet. Every district from now on will try to improve things, and it is of interest to note that education among the mass will be the popular demand everywhere with more power and responsibility to the farmers and laborers coming next in the struggle for self-government.

BASEBALL IS NOW DOWN TO LEAGUE HONG

Socony Club Meets The Mitsubishi Hong Today

BIG TEAM IS IDLE

Amn. Trading and A.M. Co. Play Next Saturday

Baseball in Shanghai for the present has settled down to the efforts of the Hong Leaguers. The big team after outclassing and decisively defeating the Japanese nine from Tsingtao in a four game series, which ended up with a school-boy squabble and a forfeit, is resting over waiting for the next opponent to be booked.

Prospects are not bright for action for Shanghai's team for the immediate future. None of the Navy boats and teams are likely to be in port for the next few weeks; there is no other foreign team touring China that might come here for a series: It is a problem for the match-makers.

This afternoon a Hong League game will be staged at the ball park, with the Socony Club opposing the Mitsubishi Shoji Kaisha, which on Sunday afternoon played a close game with the Anderson Meyer Hong. The Socony men were out yesterday practicing for the game. Arlt was out for the first time in a month, due to illness. He will probably hurl for Socony with Bristow catching.

The next Hong League game on the card will be that between the American Trading Company and the Anderson Meyer team, now tentatively slated for Saturday afternoon.

OLD TIME PUGS BIT, KICKED AND CHOKED TO WIN

Paris, July 24.—Carpentier was not the first Frenchman to have the honor of competing and of being defeated in a world's boxing championship match. French statisticians have discovered since the knockout administered to Georges by Dempsey.

On July 28, 1751, a Frenchman named Petit, weighing 260 pounds and standing six feet four met Jack Slack of England, then the undisputed champion of the world. The purse was $500.

Petit, a combination of wrestler and boxer, jumped in the center of the grass ring as soon as the word

by the throat with his left hand, began placing his right with great force upon various parts of Slack's anatomy. History does not record why the Harry Ertle of the time did not immediately disqualify the Frenchman but goes on to relate that "Slack swung a mighty right into Petit," much below the belt and that the Frenchman went down writhing in pain.

When he could summon enough strength to regain his feet, he immediately used one of them to send a well directed kick into Slack's shin. The Briton then swung right and left to the chin and the Frenchman was out cold.

"They were giants in those days and did not use eight ounce

SIMMONS AND DUNLOP WIN IN THE SEMI-FINALS

Score Of 26-16 Put Team In Finals Against Harborne And MacAllum

H'KONG TEAM IS ASSURED

Shaw And Marks Agree To Go South To Represent S'hai Lawn Bowlers

BY "THE SHOT"

The final stage has now been reached in two of the open lawn bowls championships. In the pairs Burnside and Stormes went down rather badly to Dunlop and Simmons by 26-16. In the first four or five ends Stormes was very erratic, but after this bowled well, while Burnside, although making some clever shots was not so consistent as he usually is. Dunlop seemed to bring off whatever he tried and on occasions saved threes, fours and one seven, the latter effort with his last wood. Simmons played a solid lead game and the club pair were well deserving of the spoils. They now meet their stable team, Harborne and MacAllum who defeated Aitkenhead and Macgregor at Hongkew Park green. Quite a crowd turned up to witness this match and as was expected the bowling was as good as has been seen this season. All four played well while Harborne gave a brilliant display. Bob was as good as ever but he had the mortification of seeing some of his best efforts just miss by inches.

BIG GAME FOR SATURDAY

There will be a great game next Saturday when the Lancastrians meet the S.L.B.C. At their last meeting the County Palatine went down rather badly, as a matter of fact it was in this match that a record score of 38 points to 5 was registered against Joe Buckley's rink. The Lancastrian hon. secretary is hard at work getting all the available material together and I feel convinced that the team will give a very good account of themselves. Though not a trundler himself I know the popular Lancastrian president is taking a keen interest in the encounter and a win would put him and his pets in high feather.

HONGKONG TEAM ASSURED

Thanks to the sporting spirit of Jack Shaw and Sam Marks, the question of a team for Hongkong is now settled. The recreation pair had decided to spend their holiday on the Yangtsze and included the Hankow Interport match as an item, but realising the difficulty the Association were in, regarding a team for Hongkong, they have gracefully agreed to go to the Crown Colony.

Local trundlers may now rest assured that the flag is in good hands and without exaggeration I should say that Shaw is the best skip we have seen on the greens this season. Always a classy performer, he is at the top of his form this season and whatever the result, I am sure our Hongkong friends will be pleased with his performance. Sam Marks is a very sound player and except for a little nervousness at times is as good as the best. With Messrs. Davidson, Fletcher and Landers a jolly good representative team will be made, and Hongkong will have to be all out to beat them. More anon.

Negro Defeats Plant, National Walk Champion

New York, July 17.—Wilson Jackson, the St. Christopher A. C. cross country runner, made a successful debut as a walker July 16 when he defeated Willie Plant, of the Morningside A. C., national champion, in the one-mile walk at the annual games of the Firemen's Benevolent Association at Celtic Park. Jackson is the only colored walker in the metropolitan district. Jackson had a handicap of 1:10.

OFFICIAL TENNIS LEAGUE TABLE GIVES STANDINGS

Agrees With Standings Run In China Press Last Saturday

Official standings in the City Tennis League Tournament of the Shanghai Lawn Tennis Association up to date were issued yesterday by the secretary of the association.

They agree in every particular with the standings as published in Saturday's China Press.

The official table follows:

	Clubs played	Matches	Won	Lost	Unfinished
Portuguese ..	4	20	18	2	0
Recreation	4	20	15	5	0
Cercle S. F. ..	4	20	10	10	0
Cricket Club ..	5	25	9	15	1
Country Club .	5	25	8	16	1
Columbia C. C..	4	20	8	12	0
Jananese	4	20	6	14	0

It will be seen that the P.S.A. and the Rec. Club are in a strong position.

The C.S.F. still have a chance of winning, but it would only be in the unlikely event of the leaders failing to win 3 more matches in 2 rounds still to be played.

The C.C.C. have an outside chance of making a draw, provided they win all their remaining matches.

The Country Club, the S.C.C. and the Japanese Club are out of the running for first place.

It seems probable that the final decision will depend upon the meeting of the leaders in the last round on September 9 at the Recreation Club's ground.

HURON WINS OVER 35TH DESTROYER NINE AT CHEFOO

Knoch And Weaver Have Game Safely Won Until Rain Stops Play

FLAGSHIP MEN BAT HARD

Destroyer Pitcher Knocked Out Of Box In The Fifth Inning

(China Press Correspondence)

Chefoo, August 22.—The Huron trimmed the 35th Destroyer Division today in an eight inning game which was stopped by rain to a tune of 9 to 4. Knoch had the destroyer men at his mercy until the fifth when they got two hits and as the ball was getting wet, Knoch at his own request retired in favor of Weaver who allowed.

Roberts got the longest hit, landing it between left and center for three bases. Lamke also got a three bagger and a single and Weaver 2 singles.

Plasencia, the 35th's pitcher was knocked all over the field and retired in favor of Busch in the fifth. Doherty, Huron's new addition to the outfield looks good, getting two hits in his first game. Game with the 26th was called off on account of rain.

ALL-ENGLAND AMATEURS XI FINISH WELL

Conclude Their Second Innings With 326 Runs

PLAYED IT WELL

Aussies Still Have Nine Wickets To Fall

(Reuter's Service)

London, August 29.—The match between the Australians and an All-England eleven of amateur was resumed at Eastbourne today, when the English side made an excellent recovery. Whereas they were 131 runs in arrears on the first innings, they are now 170 ahead of the Australians who still have nine wickets to fall in their second innings.

When stumps were drawn on Saturday the English second innings stood at 8 runs for one wicket, today they concluded their innings for 326. The main feature was the fifth wicket stand of Hubert Ashton, the Cantabrian, and Aubrey Faulkner, the former South African international. In two and a-half hours they put on 154 runs. Ashton's score was 75, while Faulkner put on 153 in a little over three and a half hours. He batted in superb style without giving a single chance, his principal hits being one six and 20 fours. McDonald captured six of the wickets at a cost of 98 runs.

The Australians had compiled 25 for one wicket at the close of play.

People Washed To Death Before Neighbors' Eyes

(China Press Correspondence)

Peking, August 23.—The flood disasters in the Yellow River Valley in Shantung are costing the lives of thousands of people, ruining the crops, destroying many villages, and coming on top of the famine of the past winter are bringing despair to the farmers, because of the fear that more famines are bound to follow the floods.

From Tsining, Tungchwang, Tungchowfu, Kiasianghsien, and many other towns come reports indicating that the disaster is grave. The Yellow River has broken its banks in several places, the water pouring out over the fields, sometimes to the depth of five feet and more; the low crops, such as beans and millet have been completely destroyed, while such crops as kaoliang are being ruined by water, rain, and rot.

In Litsin two hundred villages have been destroyed, in Pinhsien fifty, and one hundred and twenty severely damaged; thirty to forty thousand people are living along the dykes of the Yellow River, their homes having been washed away; many lives have been lost as boats were smashed to atoms in their attempt to rescue the stranded people.

PARALLELS NOAH'S FLOOD

Forty days rain in the Tsining district has left desolation in its wake. The Nanyang Lake has overflowed, as well as the Sze River and the Grand Canal. Sopth-east and East of Tsining the villages have been washed away, and to the South of the Nanyang Lake where was dry land is now a body of water in some places shoulder deep. Many women and children have been lost, especially when the large houses in which they had taken refuge collapsed before the waters. Tungchwang, Tungkianghang, Hukiangliang, Tsienkiangchuang, Fangtsekia, and Tukiahang, the first two on the bank of the Sze River, whose dams were broken, have been completely destroyed; others that have been partially destroyed are Nankwanki, Tungchwangkung, Yihkiaying, Chungkiankia, Changkianying, Kowtsetow, and several others have been greatly damaged, of which seventeen still are under water.

At Tseyanghsien the dams of the Tsao and Kwang Rivers have broken, and inundated the country. The small crops such as taro and sweet potatoes that are the main means of subsistence of the people have been utterly destroyed.

POOR PEOPLE PERISH

The Yellow River has broken through in two places, and left on the fatal morning of the break a plot of land between the opening. Many people took refuge upon this plot, but the river ate the land slowly away and despite the attempts of the boatmen to save the people the whole crowd was drowned before the eyes of their neighbors. The boats that put out to help them were broken and crushed by the power of the waters. It was estimated by the missionary who sent in the report that over thirty thousand destitute people were living along the river dyke, the only place above water.

At Tungchowfu an area thirty by twenty li is flooded with water knee deep. The bean and millet crops are already completely gone, and the kaoliang is going rapidly. It is not as though the people were not used to floods, says the missionary who sent the report from the region, but it is the fact that on top of the terrible times of the famine days of last winter and the hopeful outlook for the future that sprang up with the good crops this year, the floods have come and promise to leave the country in awful condition for the coming winter.

The missionaries in these regions are doing their utmost to relieve conditions, and are begging more funds from their missions to carry on the work. Much relief has already been administered.

Mail For America Going Out Today

Mail for the United States is being dispatched today by the American Post Office on the steamer Siberia Maru of the Toyo Kisen Kaisha which will sail this afternoon. The Siberia Maru is bound for San Francisco by way of Dairen, Japan ports and Honolulu.

The next incoming American mail is due to arrive here Thursday morning on the steamer Empress of Japan which is due off Woosung at 8 o'clock in the morning Thursday. The Empress of Japan will be dispatched for Hongkong direct at 6 o'clock Thursday afternoon.

Johnson Sentenced To Three Months For Check Frauds

Sentence of three months' imprisonment for obtaining goods and money by false pretense, and one month's imprisonment for obtaining credit by fraud—to be served concurrently—was passed by British Magistrate G. W. King yesterday upon C. H. Johnson, formerly baggage master on the steamer Monteagle, who stood convicted on ten charges.

In giving judgment Magistrate King laid stress on the fact that Johnson in issuing the worthless checks with which he paid for goods had victimised principally Japanese and Chinese dealers. This the court held militated heavily against the plea of the defendant that his intention was to repay when he was able.

Emissary's Papers Seized By Gov't. Cause Coolness

Ching And Chita Each Hold Other To Blame

(China Press Correspondence)

Peking, August 23.—While negotiations looking to a settlement of the dispute arising between China and the Far Eastern Republic over the seizure of confidential documents from Paul Gray, Chita emissary to China, have made no appreciable progress, there is hope that the two countries may come to an understanding.

Reports carried by some news agencies that Igantius Yourin, Minister of Foreign Affairs for Chita, had gone to Dairen, were denied in Mukden today. It was reported that Mr. Yourin was still in the Manchurian capital though he desired to settle affairs there and proceed to Dairen. His presence there was taken as a hopeful sign so far as the negotiations with Chita were concerned.

Neither the Chinese Government nor the Chita mission has made an official statement though it is reported that each considers itself the offended party.

The Chinese Government is said to construe the documents as containing evidence of wrongful intent on the part of Chita while the Mission members are said to assert just as positively that the papers contained nothing of the kind. Some of the papers have been handed back to the Chita Mission, it was reported today and the others will be returned as soon as they are translated.

WHO GETS BLAME

The question of placing the blame for the seizure of the documents may not even come up in the conversations looking to a resumption of formal negotiations, it was said today.

While the Chita Government, according to dispatches, was inclined to a similar view, it was said that Mr. Yourin was the one who would decline to negotiate further unless there was a definite understanding on the incident.

Chita officials have declared that the grips containing Mr. Yourin's papers held nothing criminal, that none of the documents showed Chita had other than friendly and just regard for Chinese sovereignty.

Some of the documents did show however, according to Mukden messages, that China and Chita jointly might enjoy certain advantages that Japan hoped to enjoy, especially in regard to the Chinese Eastern Railroad. The Chita Mission in Peking had no official statement to make public today though members of the staff did not send out a denial that Mr. Gray had been detained and his baggage rifled.

Chita representatives in Harbin are said to have expressed a fear that in case the officers who seized the documents are under the control of Chang Tso-lin, the Peking Mission headquarters may be seized.

There is no disposition to blame the Chinese Foreign Office as it is a ministry quite apart from the military or police administrations and its functions are to treat with such foreign representatives as are accredited either officially or informally. Dispatches sent by the Russian Mission to Chita have been subject to unusual delay in the last few weeks and a formal protest was lodged with the Chinese Government. It is now believed these were delayed in Mukden or Harbin on orders from General Chang Tso-lin.

Eviction Ruling Upheld By Court

A motion to set aside judgment given by United States Commissioner F. J. Schuhl Saturday, when Mrs. H. Finkelstein was ordered to vacate property at 184 Bubbling Well Road purchased by the Hongkong and Shanghai Banking Corporation, was overruled by Mr. Schuhl yesterday.

Mr. James Ross, for the applicant, argued that the court did not have jurisdiction because the sum involved was over $500 and that the eviction petition had been wrongly addressed. The Commissioner held that the court had jurisdiction and that the Bank had shown clearly that sufficient and proper notice was given.

Wood Bares Scandal At San Ramon Prison

Slayer, Sentenced To Life Term, Lives Outside Penitentiary Walls

During their visit to the San Ramon prison, the penitentiary for Mindanao and Sulu, states an Associated Press despatch, the Wood-Forbes mission found that Jose Baluyot, sentenced to life imprisonment for the murder of the governor of Bataan province more than four years ago, had not served a day in prison since being sent here from Bilibid over six months ago.

Instead, he had been living in a house with his family more than two miles from prison, and had two trusties detailed from the prison to act as his servants.

Baluyot was prominent in politics in Bataan, where he killed the governor, but nevertheless was convicted of murder and sentenced to Bilibid for life. He served about three years there and then through political influence obtained a transfer to San Ramon.

According to admissions of prison officials here, Baluyot never served a day in the Zamboanga prison until he was summoned to appear there today, one hour before the mission arrived at the prison. He was taken to the prison hospital, claiming to be ill, but according to two physicians his temperature was normal.

The mission announced that further investigation would be made in order to ascertain what influence caused his removal here, where he has been living outside the prison.

Zamboanga is general Wood's old headquarters where he served from 1903 to 1906 as military commander of all the Philippine islands south of the Visayas, and civil governor of Southern Mindanao and Jolo.

Poincare Fears Japan Might Involve France And Britain With U.S.

Former French President Declares British Alliance With Japan Bars France From Alliance With Britain

BY STEPHANE LAUZANNE
(Editor Of Le Matin, Paris)

Paris, July 9.—Nations are just like women; they sometimes find themselves in extremely difficult sentimental situations. Today France finds herself in one of these situations.

In truth, France, who is at present entirely untrammelled by any alliance or pledge, would only be inclined to marry one single nation in the world, and that is America. But the American people, for numerous reasons, do not wish to hear of marriage with anybody whomsoever, and America desires to remain a bachelor. Thus, France being denied the partner of her choice, feels disposed to turn down all the other wooers to her hand.

This is exactly what has recently happened regarding the British alliance. At any other time, this offer would have been accepted with joy and eagerness; but today it is received coldly and there is nothing that proves it will be accepted.

The dominating reason for this is that France fears such an alliance may displease America. And now, more than ever, France desires to please America. Ex-President Poincare, in the statement herein below, has expressed the French feeling in remarkably exact terms:

WILL NOT BE LED INTO WAR WITH U. S.

"Just as England would not come to our help if by any impossible chance we ever became the aggressors of Germany, we also could not possibly promise to aid her eventually in a war which would not be strictly a defensive one. In particular we must above all guard ourselves against all agreements which would be liable to lead us, indirectly, to untimely contests with the United States of America.

"We are the friends of Japan, and the visit of Prince Hiro-Hito to Paris has recently consecrated this friendship anew by well-seasoned demonstrations. But England is the ally of the Government of the Mikado.

"Tomorrow, in the very near future, a thousand questions may arise in the Pacific between the United States and Japan which will be embittered by the hatred of races. How far will England then be drawn by her alliance? No one is in the confidence of fate. We have, therefore, the right and the duty to maintain our freedom so that we ourselves may not be carried away later on the tide of adventures.

"Only recently M. Briand very fitly requested M. Viviani to reassure President Harding regarding the attitude taken as regards the matter of the Island of Yap by the Government of the Republic, and the statement of the eminent French delegate has produced a most favorable effect at Washington.

'AGAINST WHOM IS JAP ALLIANCE DIRECTED?'

"It is, however, well understood that this proof of our friendship is not a mere occasional present, not any more so than was the voyage of M. Viviani a mere manifestation without future result.

"Our relations with the United States are unchangeable!"

It would not be possible to express French opinion better as regards the offer of the British alliance and I would be greatly surprised if Premier Briand, in the recent conversation, he has had with Lord Curzon, has not expressed himself somewhat similarly.

In order that a British alliance be accepted by France, a multitude of conditions are required; but two are especially essential. First, we must know whether England intends to renew her alliance with Japan, on what terms she proposes to renew it, and against whom this alliance is directed. Second, France will have to be certain not only that such an alliance does not displease America, but even that it be both encouraged and approved by her.

In a word, any proposal in marriage from London, in order to be accepted, must not be made in Paris, it must first of all be made at Washington.

TRUST COS. PUT UNDER BAN; SIX TO CLOSE DOORS

(Reuter's Pacific Service)

Peking, August 23.—The Ministry of Agriculture and Commerce has issued an official announcement, prohibiting the following trusts and exchanges from further practice in Shanghai, on the ground that they have not been registered at the Ministry:

The Chung Hua Native Produce Exchange (International Settlement).

The Pacific Merchandise and Land Exchange (International Settlement.)

The Huashang Currency Exchange (French Concession.)

The Huan Chieh Day and Night Exchange (French Concession.)

The Huashang Silk Exchange (Chinese City.)

The Chung Hua Bean and Grain Exchange (French Concession.)

Million Young Ones Can Be Fed

(Reuter's Service)

Paris, August 29.—Mr. Brown, head of the American staff of the Relief Committee in Russia, said that the Americans could undertake to feed a million children throughout the winter.

DAILY SALUTE FOR DEAD OF REGIMENT

London, July 6.—A new and admirable form of war memorial is being instituted by the 4th Dragoon Guards. A portable brass plaque has been designed, which will always remain with the regiment wherever it may be stationed. It will form part of the charge of the regimental guard and a ritual will be established, in that the names of the fallen engraved on the plaque will be saluted with full military honors once a day by the guard at "guard mounting."

Moon Cake Safe, Waiters Back At Work In Canton

(Reuter's Pacific Service)

Canton, August 30.—The strike of tea-house waiters which started nearly three weeks ago has now been settled and the tea houses are resuming business throughout the city. On the other hand, the strike of building operatives continues and is delaying construction.

NONE CHOSEN YET

Canton, Aug. 22.—The Constitutionalist Government in Canton has so far taken no step toward the appointment of a delegation to the Pacific Conference at Washington. The Canton Government, according to reliable source, has had no agreement with Peking as to the personnel of the delegation; and unless the Government here is officially recognised, it does not propose to despatch a delegation.

The leaders in Canton, however, have organised a society to study the Pacific problem and perhaps will express the attitude of the South through this organisation. The South will not recognise any action of the Pacific Conference as binding China, as the Peking Government has no authority to appoint a delegation, the Constitutionalist Government here holds.

The attention of the Constitutionalist Government in Canton is being devoted to Hupeh, where the Kuomintang is supporting the self-government and provincial autonomy movement. The influence of the Chihli military clique under Tsao Kun and Wu Pei-fu and that of the Chinputang led by Hsiung Hsi-ling with Li Yuan-hung as the figurehead will be opposed. As soon as the Constitutionalist Government in Canton is prepared, forces will be used to oust the non-constitutionalist elements from Hupeh so as to enable the march from Canton to Peking by way of Hankow to be undisputed.

Cantonese forces, land and water, are gradually returning from Kwangsi to Kwangtung, and General Chen Chiung-ming of the Cantonese Army is expected back from the neighboring province within the next few weeks. Dr. Ma Chun-wu, the new Civil Governor of Kwangsi, assumed office August 11 and reported to the Government here accordingly.

MOB MOVIE MAN FILMING WOMEN

Parisian Husbands Object To Being Shown At Race Tracks Without Their Wives

Paris, July 16.—Racegoers around Paris have been puzzled for some little time to see that movie men taking pictures of strikingly dressed women were accompanied by policemen, of whose protection they were obviously anxious to avail themselves in case of need.

The first explanation was that the camera men were so timid through being importuned by male friends of women whose expensive toilettes seemed likely to go unphotographed that they planned to put those who became too insistent within reach of the arm of the law. The facts, however, are much more amusing.

It appears that recently numerous Parisians who had been spending an evening with their wives at the movies had difficulty, after the film of the previous Sunday's races was displayed, in accounting for the identity of the women on their arms. Some got away with a ready excuse the first time but could not expect to achieve this again.

At the next race meeting they mobbed a cinema man as soon as they saw the danger of being photographed arm in arm with a feminine friend in a new "creation" and smashed the camera.

So a film winder had only one way to get pictures without being badly battered. Now irate husbands will have to adopt disguises or go to meetings with their own wives.

WOMEN LOVE TO TALK

About the merits of Pinkettes because they know that there is no other remedy so good for the sick headaches and constipation which so commonly afflict their sex.

Pinkettes are equally helpful to men, for they banish billiousness, liver disorder, pimples, foul breath, coated tongue, and relieve Piles.

Of chemists everywhere, Pinkettes are also obtainable at 60 cents the vial post free from Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai.

CHINA EDUCATION MISSION IS NOW VISITING JAPAN

Commission Of Foreign Mission Conference En Route To Peking

The China Educational Commission of the foreign Mission Conference of North America which left Vancouver on the Empress of Asia August 18, arrived at Yokohama yesterday and went to Tokio where the members will spend several days at the Imperial Hotel before proceeding to Peking by way of Kyoto, Seoul and Mukden.

The members of the party are:

Dr. Ernest D. Burton, professor of New Testment interpretation and director of the libraries, University of Chicago, accompanied by Mrs. Burton; President K. L. Butterfield, accompanied by Mrs. Butterfield; Prof. William F. Russell, dean of the College of Education of the University of Iowa, accompanied by Mrs. Russell and three children; Prof. Percy M. Roxby, department of geography, University of Liverpool, England; President Mary E. Wolley of Mount Holyoke College; Dr. Frank W. Padelford, executive secretary of the Board of Education of the Northern Baptist Convention and Miss Margaret E. Burton of the National Board of the Y.W.C.A.

The last two are serving as secretaries of the commission. Mr. Amos M. Mathews is acting as Dr. Burton's secretary. Miss Mable Cratty of the National Board of the Y.W.C.A. is also traveling with the commission.

Bishop McConnel will join them later in Shanghai.

New Volume Lists All Manufacturers Of American Goods

Thomas' Register Is Probably Most Complete Book Of Kind Published

"Thomas' Register of American Manufacturers," which is a volume of 4,200 pages, considerably larger than the largest dictionary, has just been received in Shanghai and is probably the most comprehensive work of its kind ever issued. The agency in charge of the distribution of the book here is The China Publicity Company which is affiliated with The Commercial Press.

The new register of manufacturers is primarily for the use of buyers and purchasing agents. In the index are listed the hundreds of thousands of varied products that are made in the United States and by use of this index the names and addresses of all the manfacturers of any particular product or any line of products may be found in the book. Under each classification the names of manufacturers are arranged alphabetically throughout the volume: first by States; second by cities and towns, and third according to names of manufacturers.

As many articles of commerce are known by two or more names the entire book is cross-indexed by references from one classification to another.

Besides enabling the user of the volume to find addresses and names, as well as branch offices of manufacturing concerns, the book is so arranged that the names of individual offices of manufacturing companies are given and the names of manufacturers of special trade names and brands of goods.

For the preparation of mailing lists the volume gives names of all important manufacturers in one list, alphabetically arranged without duplication of names and names of buyers, and purchasing agents also are listed.

In all important lines of products the book gives first complete lists of all names in each line and these are followed by sub-classifications. While not intending to indicate anything in respect to credit the volume in listing manufactures prints a key symbol stating an estimate of approximate minimum capital in each case.

As a supplemental service the publishers announce their willingness to assist subscribers in finding any information that cannot be obtained from the register.

Heroin Is Banned By Chinese Gov't

(Reuter's Pacific Service)

Peking, August 23.—The Ministry of the Interior has submitted a report to the Government on the use of heroin, showing the dangerous nature of the drug and urging the prohibition of the sale of heroin pills. The Ministry has also submitted the draft of a new regulation for this purpose, which will be considered by the Cabinet shortly.

Madness Nerve Strain, Frenchman Has Cure

Paris, July 16.—Madness in all its stages is a malady of the nerve centers of the brain and is easily curable, according to Dr. Louis Toulouse, the famous French alienist.

Lecturing in Paris Dr. Toulouse estimated that there were 65,000 idiots confined in asylums in France, the detention of whom costs the French Government 50,000,000 francs annually. In addition, he said there were in Paris more than 100,000 half-insane persons walking the streets of Paris, who constituted a public danger, and the presence of whom was manifested by the extraordinary ways of homicidal mania which has caused 680 murders, including sixteen paricides and eight matricides, already this year.

"Madness is curable, provided intelligent treatment is given," he said. "The premier requisite is perfect repose. Nothing must worry the patient. In some cases, particularly alcoholic, cures can be helped by a period of starvation varying from five to fifteen days at a time. This renders the nerve centers more than ordinarily acute and assists at their regeneration."

One of the most interesting announcements of Dr. Toulouse was that the microbe of certain phases of madness has been isolated and can be combated by intravenious injections of nerve-stimulant.

Siccawei Weather Reports

29.—Center of high pressures between Vladivostok and Tokio. The depression, S. of Guam, starts slowly towards W.N.W. Another low center is apparently forming to the S.E. of Formosa where Northerly winds prevail, while the S.E. monsoon sets in again along our coasts. Weather overcast and gloomy, with passing showers and numerous lightning in the evening.

30.—Weather still very damp and relatively hot and threatening. Light Southerly breezes. The pressure stands above the average, decreasing a little.

NOTICE

Notice is hereby given that we, Ching Kwei Ye (金貴爺), and Ching Ah Nee (金阿二) owned a piece of land near Woosung, measuring about 6 mow 1 fen. In the year 1897 we sold same to a Mr. H. S. Craig at a price of $2,000.00 and handed over to him two title deeds upon receipt of his first payment of $300.00 to us. Since that time Mr. Craig has kept silent and we therefore, in consideration of his interests, ask him to come to Woosung at any time within 3 months from date of this notice bringing with him the original deeds and to pay the balance of $1,700.00 upon which we will arrange for him to obtain an official title deed from the native authorities, or otherwise his interests and rights will be forfeited and that the deeds so given him will then be considered cancelled.

Conseil D'Administration Municipale De La Concession Francaise de Changhai

MUNICIPAL LOAN OF 1921

(20,000 debentures of Tls. 100 each).

Rate of interest 8% per annum

The "Conseil d'Administration Municipale de la Concession Francaise de Changhai" hereby invite subscriptions for 20,000 debentures of Tls. 100 each, according to the resolution passed at their General Meeting on May 30, 1921.

The conditions on which the Debenture Certificates will be issued are:—

1°—The Debenture Certificates are transferable, and the person whose name is entered in the Register of Debenture Certificate or Certificates, shall alone be recognised and treated by the Council as the lawful and rightful holder and owner of such Debenture Certificate or Certificates.

2°—The loan will be redeemable at par (Tls. 100) in not less than 10 years and not more than 30 years, from 1st July, 1931 and according to the figures determinated by the Council.

3°—The loan will bear interest at 8% per annum, payable on the 30th day of June and 31st of December in each year, when interest warrants will be issued to the registered owners.

4°—The property and income of the Municipality, deducting those which serve as security provided in the Municipal Loans of 1905, 1911, 1914 and 1916 are the security for the repayment of the money advanced and for the interest thereon in the present loan.

The Members of the French Municipal Council are not personally liable in any way for the payment of either principal or interests.

5°—Applications for debentures will be received at the Secretary's Office, Rue du Consulat.

A cheque representing the amount of debentures asked for must be deposited at the same time.

6°—Applications for Debentures under par will not be recognised by the Council.

7°—For further informations, apply to Mr. P. LEGENDRE, Secretary, French Municipal Council.

Shanghai, 1st July, 1921.

P. LEGENDRE,
40063 Secretary.

American Red Cross Gives Full Assistance To Disabled Veterans

What the American Red Cross is doing for the disabled veteran of the world war is outlined in a leaflet issued by the organisation for circulation among ex-service men, copies of which have been received by the China Central Committee here.

The pamphlet assures disabled men that every assistance will be given in bringing their claims for benefits, medical attendance and the like to the attention of the government and urges them to take such matters up through the nearest Red Cross Chapter, which will help make out necessary papers. The Red Cross helps disabled men to get to the hospitals assigned them by the government, provides such means of recreation as the doctors allow, follows up compensation claims which may be pending before the Bureau of War Risk Insurance, helps file claims for vocational training where disability entitles and looks after the welfare of the disabled man's family through the Home Service Sections of the various chapters. The Home Service Sections also act as information bureaus, give legal advice, follow compensation claims through to settlement, advise regarding reinstatement or conversion of insurance and look after war veterans' Liberty Bonds, back pay, bonus claims, lost baggage, etc.

There is a Red Cross fund from which disabled ex-service men may borrow and in the case of deaths the Red Cross carries on the work of preparing and following up claims for government insurance and compensation and obtains final settlement.

MARCH OF EVENTS

BY BRUCE HOPPER

YAP will again dwindle to a mere dot along the Pacific swell, if, as stated by the London Morning Post, America has accepted Japan's offer to concede cable control instead of internationalisation of the island.

The solution seems so easy and sensible that official confirmation must be awaited before it can be recognised as pleasing fact. When President Wilson repeated several times at the Paris conference his reservation on awarding the mandate of Yap to Japan it did not indicate America wanted any spoils of the victory in which she had a share. But Yap is a relay cable station from America to the Dutch Indies and southern Asia. The possibility of Japanese censorship on American cables was a disagreeable pill which the Supreme Council expected the United States to swallow with a smile.

• • •

QUESTIONS are raised in Shanghai as to what became of the German-Dutch cable which served between Shanghai and Yap. During the war this cable was evidently lifted, and either transported to unmentioned seas by some unknown cable pirate, or it was sunk without a trace. Local cable managers have been trying for the last two years to locate the missing cable, but its disappearance remains one of the mysteries growing out of the war. It hardly seems likely that the agents who cut the cable would cast such valuable loot back into the sea without tying the end of it to some instrument which would make it serviceable. There are suspicions, but those who know do not feel obliged to tell.

The importance of Yap as a cable station to America lies in its relay position to Shanghai should the Manila-Guam cable get out of order. The Commercial Pacific Cable Co. is at present holding the Guam end of the old German-Dutch cable to Yap, but the line is idle owing to the Yap trouble. Should the Shanghai-Yap cable come to light the island would be a valuable station to relieve the Manila-Guam line. And if Japan controls the Yap cables in such an emergency it would mean that not only American cables to the Dutch Indies and southern Asia would be subject to Japanese censorship, but those to Shanghai and China as well.

• • •

CABLE rights in the Pacific bring up the question of unsatisfactory distribution of American news to the Far East. The United States Navy Wireless privilege has been withdrawn from the press, and is confined to naval paymasters in Oriental wafers. Agencies having the right to collect news in America for readers in China have their own methods of working. Whether or not there is a deliberate selection of some news items, and rejection of others according to a policy, it is true that a correct estimate of American news is obtained in Shanghai only upon the arrival of journals printed in the United States.

Among the recent tit bits picked up in Washington as news was the report that Secretary Hoover favored international political control of China. It now transpires that the government had nothing to do with the rumor, but somebody knew somebody else who heard a third person say he attended a banquet at which one underling confided to another underling that a degree of financial supervision in China seemed expedient. Immediately the wires were loaded with strange ideas said to emanate from Hoover's office, and the Japanese press stood up and danced the whirl of the furies. Gas thou art, unto gas thou shalt return, should be the epitaph of these banquet rumors, because they only upset Japanese nervous systems.

• • •

AGAIN, this column suggested that Lloyd George's open favor of the Anglo-Japanese alliance in the House of Commons ignored the nation-wide aversion to the alliance in America. The opinion was violently challenged by a Shanghai resident, who quoted editorial excerpts cabled from New York to prove that America was enthusiastic in approval of the Premier's views. Late reports show that officials in Washington and the people in general are frankly puzzled over Lloyd George's motives on the eve of the Pacific conference. Hope is expressed that further action on the renewal of the alliance will be deferred until the new conference has the opportunity to prove alliances unnecessary.

Mexico

BY JOHN P. MEDBURY

There is something the matter with Mexico. For the last few months it's been as quiet as a mouse at a cats' convention.

Even the Mexican jumping beans have lost their pep.

Maybe Voistead has taken the hops out of them, too.

It used to be that a Mexican President would be elected in the morning, assassinated in the afternoon and buried in the evening.

The newspapers would print his election and death notice in the same edition.

No Mexican mother ever told her little boy that she hoped he'd grow up to be President.

A President always lived his whole lifetime, but his lifetime wasn't very long.

In the United States, we've got a saying: "I'd rather be right than be President." In Mexico they had a saying: "I'd rather be alive than be President."

Still, there's no use in them having any more revolutions, all of the moving picture companies have left Mexico.

The Mexicans who wouldn't get downtown to see the battles always went to the picture shows to see them.

Villa has quit dropping out of sight. He can't find any more places to hide.

He's living home now and manufacturing disappearing cream.

He says there's no profit any more in robbing people. The restaurants and hotels get it all before he can get to them.

It used to be that half of the people of Mexico were fighting on the streets and the other half were afraid to come out.

Mexico ought to have a good government by this time; they've changed it often enough.

You had to read the paper every day to find out who was governor.

A Mexican governor would always run twice. Once for office and once for his life.

And the faster he could run the longer he'd live.

He had to keep up with the people, but ahead of the bullets.

In the United States, being President is one round of pleasure after another; but in Mexico it was one round of ammunition after another.

"The Ancients Knew Much Which We Have Forgotten, Especially About The Relations Of One Body To Another—Seances Have Gone On For Years With Many Witnesses Of Credit, Still Men Shake Their Heads"

(Extracts from His Forthcoming Book, "Wanderings of a Spiritualist." The Creator of "Sherlock Holmes" Is Now a Believer in Spiritualism.)

The ancients knew a great deal which we have forgotten, especially about the relation of one body to another. What did Hippocrates mean when he said. "The affections suffered by the body the soul sees with shut eyes?" I will show you exactly what he means.

My friend M. J. Bloomfield, as unselfish a worker for truth as the world can show, tried for nearly two years to develop the medical powers of a clairvoyant. Suddenly the result was attained without warning.

He was walking with a friend, laughing over some joke. In an instant the laugh was struck from his lips. A man and woman were walking in front, their backs toward Bloomfield. To his amazement he saw the woman's inner anatomy mapped out before him, and especially marked a round mass near the liver, which he felt intuitively should not be there.

DIAGNOSIS WAS CORRECT

His companion rallied him on his sudden gravity, and still more upon the cause of it when it was explained. Bloomfield was so certain, however, that the vision was for a purpose that he accosted the couple, and learned that the woman was actually about to be operated on for cancer.

He reassured them, saying that the object seemed clearly defined and not to have widespread roots, as a cancer might have. He was asked to be present at the operation, pointed out the exact place where he had seen the growth, and saw it extracted. It was, as he had said, innocuous.

With this example in one's mind the words of Hippocrates begin to assume a very definite meaning. I believe that the surgeon was so struck by the incident that he was most anxious that Bloomfield should aid him permanently in his diagnoses.

I will now give my own experience with Mr. Bloomfield. Denis (my son) had been suffering from certain pains, so I took him round as a test case. Bloomfield, without asking the boy any questions, gazed at him for a couple of minutes. He then said that the pains were in the stomach and head, pointing out the exact places. The cause, he said, was some slight stricture in the intestine, and he proceeded to tell me several facts of Denis's early history which were quite correct and entirely beyond his normal knowledge.

I have never in all my experience of medicine known so accurate a diagnosis.

TREATED BY A SPIRIT

There are, as I understand it, at least two quite different forms of psychic healing. In such cases as those quoted the result may be due only to subtle powers of the human organism which some have developed and others have not.

The clarivoyance and the instinctive knowledge may both belong to the individual. In other cases, however, there are the direct action and advice of a wise spirit control, a deceased physician usually, who has added to his worldly stock of knowledge. He can, of course, only act through a medium and just there, alas, is the dangerous opening for fraud and quackery.

But if any one wishes to study the operation at its best let him read a tiny book called "This only I Know," which records the cure the writer, the sister of an Anglican canon, when she had practically been given up by doctors of this world after fifteen years of bed, but was rescued by the ministrations of Dr. Beale, a physician on the other side. Dr. Beale received promotion to a higher sphere in the course of the treatment, which was completed by his assistant and successor. It is a very interesting and convincing narrative.

EFFECT OF THE RITUAL

I have always been against ritual, and yet now that I see the effect of being without it I begin to understand that some form of it, however elastic, is necessary. It offends me to see clairvoyance turned off and on like a turn at a music hall. It is either nonsense or the holy of holies and mystery of mysteries.

Perhaps it was just this conflict between the priest with his ritual, and the medium without any, which split the early Christian Church, and ended in the complete victory of the ritual, which meant the extinction not only of the medium but of the living visible spiritual forces which he represented.

Flowers, music, incense, architecture, all tried to fill the gap, but the soul of the thing had gone out of it.

It must, I suppose, have been about the end of the third century that the process was completed, and the living thing had set into a petrifaction. That would be the time, no doubt, when special correctors were appointed to make the Gospel texts square with the elaborate machinery of the Church. Only now does the central fire begin to glow once more through the ashes which have been heaped above it.

CONTROLLED BY CHINESE

At a meeting of the Rescue Circle, Melbourne, Australia, Mr. Love was the medium and I witnessed a very remarkable and consistent performance. Even those who might imagine that the different characters depicted were in fact various strands of Mr. Love's sub-conscious self, each dramatising its own peculiarities, must admit that it was a very absorbing exhibition.

The circle sits round with prayer and hymns while Mr. Love falls into a trance state. He is then controlled by the Chinaman, Quong, who is a person of such standing and wisdom in the other world, that other lower spirits have to obey him. The light is dim, but even so the characteristics of the Chinaman get across very clearly, the rolling head, the sidelong humorous glance, the sly smile, the hands crossed and buried in what should be the voluminous folds of a Mandarin's gown.

He greets the company in somewhat labored English and says he has many who would be the better for our ministrations.

"Send them along, please," says Mr. Tozer.

The medium suddenly sits straight and his whole face changes into an austere harshness. "What is this ribald nonsense?" he cries.

"Who are you, my friend " says Tozer.

A TALK WITH A SPIRIT

"My name is Mathew Barrett. I testified in my life to the Lamb and to Him crucified. I ask again. 'What is this ribald nonsense?' "

"It is not nonsense, friend. We are here to help you and to teach you that you are held down and punished for your narrow ideas, and that you cannot progress until they are more charitable."

"What I preached in life I still believe."

"Tell us, friend, did you find it on the other side as you had preached?"

"What do you mean?"

"Did you, for example, see Christ?"

There was an embarrassed silence.

"No, I did not."

"Have you seen the devil?"

"No, I have not."

"Then, bethink you, my friend, that there may be truth in what we teach."

"It is against all that I have preached."

A moment later the Chinaman was back with his rolling head and his wise smile.

"He good man—stupid man. He learn in time. Plenty time before him."

BLUEJACKET AND SKY PILOT

We had a wonderful succession of "revenants." One was a very dignified Anglican who always referred to the Control as "this yellow person."

Another was an Australian soldier.

"I never thought I'd take my orders from a Chink," said he, "but he says 'Hist!' and, by gun, you're got to 'hist,' and no bloomin' error."

Yet another said he had gone down in battle.

"Can you tell me anything of the action?" I asked.

"We never had a chance. It was just hell."

There was a world of feeling in his voice. He was greatly amused at the "sky pilot," as he called the chaplain, and at his confusion when he found the other world quite different from what he had depicted.

A terrifying Gurkha came along, who still thought he was in action and charged about the circle, upsetting the medium's chair, and only yielding to a mixture of force and persuasion.

There were many others, most of whom returned for the benefit derived from previous meetings. "You've helped us quite a lot," they said. Between each the Chinese sage made comments upon the various cases—a kindly wise old soul, with just a touch of mischievous humor running through him.

We had an exhibition of the useless apostolic gift of tongues

during the evening, for two of the ladies present broke out into what I was informed was the Maori language, keeping up a long and loud conversation. I was not able to check it, but it was certainly a coherent language of some sort.

TYPES OF "CONTROLS"

As I am on the subject of psychic experience, I may as well carry on. Mrs. Susanna Harris, the American voice medium, who is well known in London, had arrived here shortly after ourselves, and gave us a sitting. Mrs. Harris's powers have been much discussed, for while on the one hand she passed a most difficult test in London, where, with her mouth full of colored water, she produced the same voice effects as on other occasions, she had no success in Norway when she was examined by their Psychic Research Committee; but I know how often these intellectuals ruin their own efforts by their mental attitude, which acts like those antiferments which prove it a chemical effervescence.

Shortly after her arrival in Melbourne she gave us a seance in our private room at the hotel, no one being present save at my invitation. There were about twelve guests, some of whom had no psychic experience, and I do not think there was one of them who did not depart convinced that they had been in touch with preternatural forces.

There were two controls, "Harmony," with a high girlish treble voice, and a male control with a strong decisive bass. I sat next to Mrs. Harris, holding her hand in mine, and I can swear to it that again and again she spoke to me while the other voices were conversing with the audience.

"Harmony" is a charming little creature, witty, friendly and innocent. I am quite ready to consider the opinion expressed by the Theosophists that such controls as "Harmony" with Mrs. Harris "Bella" with Mrs. Britain, "Feda" with Mrs. Leonard, and others, are in reality nature-spirits who have never lived in the flesh but take an intelligent interest in our affairs and are anxious to help us. The male control, however, who always broke in with some final clinching remark in a deep voice, seemed altogether human.

Whilst these two controls formed the chorus of the play, the real drama rested with the spirit voices, the same here as I have heard them under Mrs. Wriedt, Mrs. Johnson, or Mr. Powell in England—intense, low, vibrating with emotion and with anxiety to get through. Nearly all in the circle had communications which satisfied them.

ADMIRAL AND GENERAL

One lady who had mourned her husband very deeply had the inexpressible satisfaction of hearing his voice thanking her for putting flowers before his photograph, a fact which no one else could know.

A voice claiming to be "Moore-Usborne Moore" came in front of me. I said: "Well, Admiral, we never met but we corresponded in life." He said: "Yes, and we disagreed." which was true.

Then there came a voice which claimed to be Mr. Morse, the eminent pioneer of Spiritualism. I said:

"Mr. Morse, if that is you, you can tell me where we met last."

"He answered, "Was it not in Light office in London?"

I said, "No, surely it was when you took the chair for me at that great meeting at Sheffield."

He ahswered, "Well, we lose some of our memory in passing.

As a matter of fact he was perfectly right, for after the sitting both my wife and I remembered that I had exchanged a word or two with him as I was coming out of Light office at least a year after the Sheffield meeting. This was a good test, as telepathy was excluded.

General Sir Alfred Turner also came and said that he remembered our conversation on earth. When I asked whether he had found the conditions beyond the grave as he expected he answered "Infinitely more so."

Altogether I should think that less than twenty spirits manifested during this remarkable seance. The result may have been the better because Mrs. Harris had been laid up in bed for a week before hand and so we had her full force.

Such seances have been going on now for seventy years, with inumerable witnesses of credit who will testify, as I have done here, that all fraud or mistake was out of the question. And still the men of no experience shake their heads. I wonder how long they will succeed in standing between the world and the consolation which God has sent us.

Household Hints

If pots and pans used in cooking are washed as soon as emptied and while still hot, the housewife will make a fifty percent saving in time and labor.

* * *

A good substitute for mayonnaise can be made by rubbing down a dessertspoonful of mashed potato with mustard and salt to taste and a little cream instead of salad oil. Then add vinegar to taste.

* * *

An old fowl can be made tender if it is first rubbed over with lemon juice, then wrapped in buttered paper and steamed for two or three hours, according to size. Of course, if preferred, it can be partially steamed and then roasted, and still be tender.

* * *

For paintwork and varnished woodwork bran is invaluable. Colored goods usually fade when washed, but if washed in bran water they will not lose their color. It is excellent also as a scalp cleanser making the hair glossy. Used instead of soap, it softens and whitens the hands. To prepare bran water, fill a small bag with bran, place in a bowl and cover with boiling water.

Your Health Comes First

Good Health is your most valuable asset;—its preservation should, therefore, receive your most careful consideration. An important point which should always be borne in mind is the fact that a great many forms of ill-health can be traced, directly or indirectly, to disorders of the stomach, liver, kidneys and bowels. It is wise, therefore, to keep these organs in healthy activity. When they show any signs of derangement let that reliable medicine, Beecham's Pills, be taken at once. Always deal with digestive ailments in time. They are far-reaching in their possibilities of mischief if neglected, as they too often are. And yet it is generally easy to keep fit and well and free from many debilitating ailments by the simple use of

TEXACO MOTOR OILS
—SAVE POWER, THE ENGINE, EXPENSE

There are four grades of Texaco Motor Oil; light, medium, heavy and extra heavy—a grade to suit your every requirement, no matter what kind of car you drive.

Texaco Motor Oil assures maximum power because it holds the "seal" between piston rings and cylinder walls. That is where fuel leakage occurs when the lubricant does not possess body to function properly.

Texaco Motor Oils are composed of the best American Crudes, refined according to most scientific methods, and each tin is tested before it leaves the refinery. Use of it affords free lubrication to all moving parts of the motor, more power, high compression, and less carbon. The little carbon which does remain is never hard and flinty, but soft and fluffy like soot.

Texaco Motor Oil is a quality product, each drop is the same—maximum lubrication value, minimum waste.

FEARON, DANIEL & Co., Inc.

Cotton Anti-Adulteration Association To Raise Its Fees

Increased importation of American and Indian cotton for Shanghai mills and a marked falling off in export figures for Chinese cotton were cited yesterday as reasons for a loss of Tls. 22,516.93 in the working account for the past year of the Cotton Anti-Adulteration Association. In view of this it has been decided to increase testing house fees to the average of six dollar cents per picul from September 1.

The tenth annual meeting of the association was held yesterday forenoon in the offices of Messrs. Jardine, Matheson & Co. Mr. E. C. Pearce presided, supported by Messrs. A. B. Rosenfeld, J. Spunt, D. Campbell, J. M. Flynn, Den, acting manager, and A. Jessiman, secretary. The chairman's report was as follows:

"Gentlemen, the report and statement of accounts having been in your hands for some little time, I will with your permission take them as read.

"It is with regret that I have to call your attention to the loss on working account for our year terminating on July 31 last. The loss for our twelve months working being Tls. 22,516.93.

"There are two important factors which have acted against us during the period covered by the accounts.

LESS CHINESE COTTON

"The first is the comparatively small amount of Chinese cotton used by the local mills who are members of the association viz. only Pcls. 436,000, as against last Pcls. 613,580—a decrease of no less than Pcls. 207,500 in twelve months. The reason for this serious falling off is not far to seek. Owing to the comparatively high cost of Chinese cotton and the continual adulteration by the Chinese, local mill owners have imported a considerably larger quantity of both American and Indian cotton which during the last season have laid down in Shanghai at a very much lower cost. It may interest you to know that from September 1, 1920 to date no less than Pcls. 790,000 of both American and Indian cotton have been imported into Shanghai; this does not include arrivals for City of Canton and Bessie Dollar and as far as can be ascertained a considerable amount is afloat and to arrive for this market. Local mill owners have found it undoubtedly more profitable to import a reliable staple than trust to the Chinese adulterated article even if at times a higher price has to be paid. The Chinese cotton growers surely must sooner or later realise the competition they have to contend against.

EXPORT FIGURES DROP

"The second reason for the falling away of our fees is the fact that our export figures for Chinese cotton from September 1 to date show again a very marked falling away from previous years. Last season's crop was undoubtedly not a large one which may in a measure account for the decrease. Taken from the Customs returns the figures are as follows:

	Pcls.
Sept. to Aug., 1918-19	1,241,091
Sept. to Aug., 1919-20	459,949
Sept. to Aug., 1920-21	366,044

"Taking the above reason into careful consideration, your committee have seen no help for it but to raise the Testing House fees to the average of six dollars cents per picul from September 1 this year, and a notification to this effect has already appeared in the press.

"Under the heading of Cotton Experimental Work, you will notice a charge of Tls. 5,013.05 for our proportion of services and expenses of a Cotton Expert, Mr. John B. Griffing, of the University of Nanking, who was engaged jointly last year by the Cotton Mill Owners' Association and ourselves to conduct experimental work and propaganda for the improvement of Cotton cultivation in China, presented his report to the two associations on June 17 last, which was most interesting. I can only call the attention to those members who were not present at the meeting to the published account which appeared in the North China Daily News of June 18 last. Your committee consider that this money is well spent.

OVERDRAFT SECURED

"On July 31, your Association's overdraft with the Hongkong and Shanghai Bank due to the loss sustained stood at Tls. 19,598.26. This has been secured by your investments, the cost of which was Tls. 87,702.15 and against which we have an Investment Fluctuation Reserve of Tls. 15,000. The actual market value of these securities on July 31 stood at Tls. 74,635.

"In the circumstances your committee this year do not feel justified in paying interest on the Guarantee Fund which for the last three years has received 10 percent.

"Mr. Sutherland, our recent manager, left us in March on leave, and since April 1 the Cotton Testing House has been in charge of Mr. Don. The Association tenders its thanks to the Customs authorities for so kindly seconding such able men to look after our interests.

"With these few remarks, gentlemen, I have pleasure in moving the adoption of the reports and accounts but before placing the resolution to the meeting, I shall be pleased to answer any questions to the best of my ability."

No questions were asked and on the motion of the chairman, seconded by Mr. A. B. Rosenfeld, the report and accounts were adopted.

On the motion of Mr. Rosenfeld, seconded by Mr. J. Spunt, the Committee was re-elected.
